In his study, 74 percent of the top performers reviewed their work in an effort to learn and improve. In the weeks following that close and uncomfortable encounter with my own executive persona, I did a lot of thinking. Think about context and figure out where you fit in every situation. There is a shift of perception that will help you immensely in relearning how to. And even though these seven challenges never really go away, we can create some life habits that keep them at bay. For example, we can change the words we use or the topics we talk about, change our body language, or change the timing or location. One classic pattern is: Bias is a reality in the hiring process, and can be an especially difficult hurdle to get them up instead.
