However, the National Adolescent Perpetrator Network established in has called attention to the lack of substantive research in the field and the lack of consensus regarding basic principles of treatment National Adolescent Perpetrator Network, Preliminary outcome data on the treatment of juvenile sex offenders show positive outcomes Kavoussi et al. Page 56 Share Cite.

Recent empirical studies have rigorously examined multiple outcomes of treatment. Empirical evidence indicating a sustained reduction in the sequelae of abuse over time is not available from programs that directly and consistently involve abused or neglected children. The panel has identified five key reasons why child maltreatment research should be viewed as a central nexus of more comprehensive research activity.
