The World Trade Organization WTO has increasingly recognized effective implementation of good regulatory practices as an important means of avoiding and minimizing unnecessary barriers of trade. Economic incentives could also do much to increase political will for product safety in developing countries. Training deficits are at the root of many product safety problems in emerging economies. Inth meantime, the agency can work with universities and through existing Domestic FDA staffers should be more aware of international compliance with their regulations and the challenges of adherence to standards, enforcement, and quality assurance in

developing countries. A functional informatics system thus has the ability to enhance the productivity of regulatory agencies in developing countries.

The committee realizes that the FDA and other regulatory agencies may be reluctant to participate in the Tobin Project;
