Pharmaceutical promotion – a free bribe? Discussion of how this might occur is beyond the scope of this article, but it would need to include demonstration of the power of marketing techniques, skills in appraisals of evidence about efficacy of drugs, and information about the scale and costs of the harms that occur to patients through inappropriate prescribing. Become a Member today! Interests of medical practitioners include: Entertainment should not be lavish. Responses are now closed for this article. JPersSocPsychol; The overriding principle should be a firm belief that the values of science and clinical medicine must prevail over commercial imperatives.
